University Innovation Fellows Team

Student-led innovation at Virginia Tech

University Innovation Fellows training and International Meet-up with +400 students at the d.School in Stanford

The program empowers student leaders to create change at their universities. The training program allowed us to uncover underlying issues, raise awareness about potential gaps and contact diverse audiences. We are working to catalyze change and facilitate shared endeavours between students and administration.

Social media strategy and meet-ups to support to the Student Experiential Learning Conference at VT

Collaborate to promote a student-centered culture of experiential learning

Supporting a cohesive, multi-dimensional student-led initiative connecting Virginia Tech students to experiential learning opportunities
